EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Gary Oakeson on 03/28/05.

The application has been amended as follows:

Claim 51, line 2, the phrase "an oil" has been amended to "a vegetable oil".

Claim 51, lines 2-3, the phrase "above about 110 Deg. F." has been amended to "between 120 degree F and 200 degree F".

Claims 53, 54 and 61, the phrase "the oil" has been amended to "the vegetable oil".

Claims 57-60, the phrase "the oil having a melting point above about 110 Dg. F" has been amended to "the vegetable oil".

Claim 65, line 3, the phrase "an oil" has been amended to "a vegetable oil".

Claim 65, lines 3-4, the phrase "above about 110 Deg. F." has been amended to "between 120 degree F and 200 degree F".

Claims 66, 68, 69, and 76, the phrase "the oil" has been amended to "the vegetable oil".

Claims 72-75, the phrase "the oil having a melting point above about 110 Dg. F" has been amended to "the vegetable oil".

Claim 80, line 2, the phrase "an oil" has been amended to "a vegetable oil".

Claim 80, lines 2-3, the phrase "above about 110 Deg. F." has been amended to "between 120 degree F and 200 degree F".

Claims 82, 83 and 90, the phrase "the oil" has been amended to "the vegetable oil".

Claims 86-89, the phrase "the oil having a melting point above about 110 Dg. F" has been amended to "the vegetable oil".

Claim 94, line 4, the word "essentially" has been deleted.

Claim 102, line 4, the word "essentially" has been deleted.

Claims 56, 71 and 85 have been cancelled.

The following is an examiner's statement of reasons for allowance:

The cited prior arts do teach or suggest a microencapsulation process requires adding and mixing the core material and the vegetable oil until microencapsulated particles are formed within a high shear mixer, and discharging the microencapsulated particles as a powder from the high shear mixer. This high shear mixer is known to produce unique mixing action, and providing a high volume rate of material transfer throughout the entire length of the vessel.

The reason for allowance of the product claims is the use of the transitional phrase "consists of" to exclude all other components use in the microencapsulated formulation but what is disclosed in claims 94 and 102.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Claims 51-55, 57-70, 72-84, 86-94, 96-98, 101-105 and 107 are allowed.
